

Mission Statement

The I in IEP-

Our Mission is to keep at the forefront the I in IEP.

I am an advocate for your child.

I know our rights, your rights and your child's rights in this process.

I will research all education policies relating to your child.

I will defend and fight for your child.

I will not back down over their needs.

I will never surrender their right to a fair and proper education.

I will be prepared as possible for questions.

I will ensure the plan is "Individualised/Personal" and not generic.

I will ensure the school remembers that this is about a PERSON and not a process.

Our Mission is to:

- Support children as they discover and explore new ideas in a safe, welcoming and supportive environment.
- Support children to become and feel confident and capable.
- Be an inspiring and empowering force in children's lives so they are excited and motivated to learn.
- Help our children find a sense of purpose in their lives through education.
- Ensure all lessons are student-centred and differentiated so that our students get the support they need.
- Utilise humanist and socio-cultural principles so students can learn through discovery in safe and collaborative environments.
- Ensure assessment, pedagogy and curriculum are student-centred so that learning is always relevant to the lives of my students.
- Develop an inclusive atmosphere in which students learn to appreciate and respect their sameness and diversity.
- Help our students understand that they have the capacity to achieve their personal goals.
- Promote both hard and soft skills in my students, including stem skills and important emotional skills such as compassion, resilience and work ethic.
- Follow a holistic approach to child development. We pay attention to students' social, physical, emotional and cognitive development equally to help our children reach their full potential.

Our Mission is to:

- Treat all with dignity and respect – to see people as individuals and appreciate and welcome their differences, this enriches us individually and collectively.
- Treat all with integrity - We will always do what we say we will do.
- Treat all with compassion - In being compassionate we will care for and nurture the whole person.
- Develop empowerment – To empower individuals in achieving wellbeing and autonomy.
- Aim for excellence – to strive for high standards in all that we do.
